Lab 6: Error Estimation for Regression Models

Ahmed Eleish

ITWS/MGMT-4600/6600, CSCI-4600, BCBP-4600

November 7th, 2025

Tetherless World Constellation
Rensselaer Polytechnic Institute

Lab 6

Regression Evaluation

Using the NY House dataset:

- Train 3 regression models each using a different algorithm to predict price from square footage. Evaluate model performance using the MAE, MSE and RMSE metrics.

Please push to your github repository:

1. All your code in a *.R or *.MD file
2. Model outputs and plots in pdf/docx, etc.

Thanks!
Have a great weekend!
